## Job Description

**Job ID:** R0008904

**Date posted:** 14/02/2025

### Company description

Are you passionate about transforming raw data into meaningful insights? Do you thrive on designing, constructing, and maintaining the architecture that allows businesses to harness the power of their data? If so, we have an exciting opportunity for you to join our dynamic team as a Data Engineer.

As part of the Digital Engineering team in the Data & Technology department, you will contribute to develop and deploy digital products, strengthening the common ways of working. You will work closely with teams across the Inter IKEA group and with our partners. You are passionate about the digital transformation and see process and solution development as a key to make life easier for the many people and make a clear footprint in line with the IKEA direction.

### Job description

As a Data Engineer you will:

- Transform data into an analyzable format (ETL/ELT) to deliver business benefits.
- Develop and maintain infrastructures for data sourcing, processing, and sharing.
- Optimize, test, and implement tools to enhance data quality and monitor drift and decay.
- Manage data integration, processing, and modeling.
- Provide APIs for standardized data sharing and access.
- Translate business data needs into technical solutions and architectures.
- Ensure compliance with security, legal, and delivery standards.
- Support and coach teams in data-driven development.
- Document and share knowledge on data infrastructure within IKEA.

We are looking for new colleagues with:

- Extensive experience in designing data pipelines, data warehousing, data modeling, and database design.
- Strong expertise in Python, SQL, and other database scripting languages, as well as general-purpose data handling languages.
- Good knowledge of industry-standard software development languages and deep understanding of on-premises, cloud, and hybrid infrastructures.
- A team player who takes ownership, builds cross-functional relationships with senior peers, and enjoys mentoring junior team members.
- A curious, world-class problem solver with a passion for continuous learning.

Of course, you share our values, not only by thought but also clearly mirrored in how you carry them out in your everyday life. To learn about what it means, please explore more here; <https://en-global-jobs.about.ikea.com/lifeatikea>.

#### About IKEA of Sweden/Range

IKEA of Sweden is responsible for developing the IKEA range and making it available to stores and customers all over the world. IKEA of Sweden is based in Älmhult – the heart of IKEA and the center of IKEA range development.

#### More Information

This is a permanent position based in Malmö, with occasional travel to Älmhult as needed to meet business requirements.

We are actively conducting ongoing interviews, so we encourage you to submit your application without hesitation. For any questions about the recruitment process, you can directly connect with [timon.krommendam@inter.ikea.com](mailto:timon.krommendam@inter.ikea.com)

#### About Inter IKEA Group

*Inter IKEA Group is the group of companies that connects IKEA franchisees with range development and suppliers and aligns the overall IKEA strategic direction. All to create a better everyday life for many people. The Group includes Inter IKEA Systems B.V. – the worldwide IKEA franchisor – as well as range development, Supply and certain industry activities.*
